**GENERAL DESCRIPTION/EXPERIENCE/EDUCATION: SENIOR LEVEL**

**Financial Analyst Senior Level:** Plan, organize, and direct financial management activities, or analysis efforts of a group of specialists and/or advising on and performing professional or technical work related to financial management. Work requires the technical capability to:

- independently plan, organize, complete, and present assessments of financial management concepts, analyses, studies, and procedures
- evaluating implications of existing or proposed financial programs, processes, and policies/laws, and recommending improvements
- knowledgeable of government budget processes, fiscal law, financial analysis methods, reporting requirements, financial systems, statistical techniques, applied mathematics, or economics

**Minimum Experience Requirements:** Twelve years of experience is required, to include cost, budget, accounting, or financial management experience. Knowledge of Air Force Working Capital Fund operations, AF Flying Hour Program, specific DoD/AF/AFMC systems, and/or logistic management concepts or practices may be required as specified in the individual task orders.

**GENERAL DESCRIPTION/EXPERIENCE/EDUCATION: JOURNEYMAN LEVEL**

**Financial Analyst Journeyman Level:** Perform professional or technical work in financial management activities and analysis efforts. Work requires the technical capability to:

- assess financial management concepts, analyses, studies, and procedures
- evaluate financial implications of existing or proposed financial programs, processes, policies/laws, and recommending improvements
- prepare and present briefings with knowledge of government budget processes, fiscal law, financial analysis methods, reporting requirements, financial systems, statistical techniques, applied mathematics, or economics

**Minimum Experience Requirement:** Eight years of experience is required, to include cost, budget, accounting, or financial management experience. Knowledge of Air Force Working Capital Fund operations, AF Flying Hour Program, specific DoD/AF/AFMC systems, and/or logistic management concepts or practices may be required as specified in the individual task orders.

**GENERAL DESCRIPTION/EXPERIENCE/EDUCATION: JUNIOR LEVEL**

**Financial Analyst Junior Level:** Perform professional or technical work in financial management activities and analysis efforts. Work requires the technical capability to:

- assess financial management concepts, analyses, studies, and procedures
- evaluate financial implications of existing or proposed programs, processes, policies/laws, and recommend improvements and prepare and present of briefings
- follow direction of a journeyman analyst
- provide detailed analysis including problem identification, research, and resolution with a basic knowledge of government budget processes, fiscal law, financial analysis methods, reporting requirements, financial systems, statistical techniques, applied mathematics, or economics
- **Minimum Experience Requirement:** At least three years of experience is required, to include cost, budget, accounting, or financial management analysis experience.
